pur poses.	Missouri	Charter school students in Missouri are counted as students of the charter they attend for state reporting purposes.

Montana	Montana does not have a law establishing charter schools.
	The State Board of Public Education in Montana has established a process whereby school districts may apply to have one of their schools designated a charter. However, Montana has no state law pertaining to charter schools or charter school funding. Students of schools designated as a charter would continue to be counted as schools of the district where they are located for state reporting purposes.
Nebraska	Nebraska does not have a law establishing charter schools.
Nevada	Charter school students in Nevada are counted as students of the charter they attend for state reporting purposes.
New Hampshire	State contacts did not confirm how charter school students in New Hampshire are reported.
New Jersey	Charter school students in New Jersey are counted as students of the school district(s) where the students reside for state reporting purposes.
New Mexico	Charter school students in New Mexico are counted as students of the charter they attend for state reporting purposes.
New York	Charter school students in New York are counted as students of the school district(s) where the students reside for most state reporting purposes.
	Charter students are counted as students of the district(s) where they reside for most purposes, but charter school students are counted as students of the district where the charter is located for allocation of some program-specific allocations.
North Carolina	Charter school students in North Carolina are counted as students of the charter they attend for state reporting purposes.
North Dakota	North Dakota does not have a law establishing charter schools.
Ohio	Charter school students in Ohio are counted as students of the school district(s) where the students reside for most state reporting purposes.
	However, the Ohio Department of Education is able to exclude charter students from school district student counts for some purposes.
Oklahoma	Charter school students in Oklahoma are counted as students of the charter they attend for state reporting purposes.
Oregon	Charter school students in Oregon may be counted as students of the charter they attend or as students of the school district in which the charter school is located, for state reporting purposes.
	Charter school students are counted as students of the district in which the charter is located for the purpose of calculating funding. However, charter school students are counted as students of the charter they attend when the state collects student count data later in the year.
Pennsylvania	Charter school students in Pennsylvania are counted as students of the school district(s) where the students reside for most state reporting purposes.
	Charter school students are counted as students of the charter, but are then attributed to the district(s) where they reside.
Rhode Island	State contacts did not confirm how charter school students in Rhode Island are reported.
South Carolina	Charter school students in South Carolina are counted as students of the school district in which the charter school is located for state reporting purposes.

South Dakota	South Dakota does not have a law establishing charter schools.
Tennessee	Some charter school students in Tennessee are counted as students of the charter they attend for state reporting purposes, while other charter school students are counted as students of the school district in which the charter school is located.
	Students attending charter schools authorized by the State Board of Education are counted as students of the charter while students attending charters authorized by a local school district are counted as students of that district.
Texas	Some charter school students in Texas are counted as students of the charter they attend for state reporting purposes, while other charter school students are counted as students of the school district where the charter school is located.
	Students of charter schools that are authorized by the State Board of Education are counted as students of the charter they attend for state reporting purposes while students of charter schools authorized by a local school district are counted as students of that district.
