A Detailed Look at Arizona's Charter Funding Policies

Arizona

Funding Basics

Authorizer

Charter funding policies and reporting practices within each state may vary depending on the entity that authorized the charter school. Charter schools in Arizona may be authorized by the State Board of Education, the State Board for Charter Schools, or other entities, like institutions of higher education.

Funding Formula

Funding for charter schools in Arizona is calculated based on a formula similar to the one used to calculate funding for traditional public schools.

Like traditional public schools, charter schools are funded through a student-based formula that considers the characteristics of students they educate. Charter schools in Arizona receive additional funding for students in certain grade levels and English-language learners. However, the formula for calculating charter schools does not take into account teacher experience and calculates additional funding for small schools differently.
